## ATTINE OF DATE

## HT9425-23-S-BAA1 DOD USAMRDC FY23-FY27 BROAD AGENCY ANNOUNCEMENT for Extramural Medical Research Department of Defense Dept. of the Army -- USAMRAA

Document Type:	Grants Notice
Funding Opportunity Number:	HT9425-23-S-BAA1
Funding Opportunity Title:	DOD USAMRDC FY23-FY27 BROAD AGENCY ANNOUNCEMENT for Extramural Medical Research
Opportunity Category:	Discretionary
<b>Opportunity Category Explanation:</b>	
Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Science and Technology and other Research and Development
Category Explanation:	
Expected Number of Awards:	
CFDA Number(s):	12.420 Military Medical Research and Development
Cost Sharing or Matching Requirer	nent: No

Version:	Synopsis 2
Posted Date:	Sep 22, 2022
Last Updated Date:	Sep 22, 2022
Original Closing Date for Applications:	
Current Closing Date for Applications:	
Archive Date:	Oct 30, 2027
Estimated Total Program Funding:	
Award Ceiling:	
Award Floor:	

## ELIGIBILITY

**Eligible Applicants:** 

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Additional Information on Eligibility:

## **ADDITIONAL INFORMATION**

Agency Name: Description: Dept. of the Army -- USAMRAA

The USAMRDC's mission is to provide solutions to medical problems of importance to the American Service Member at home and abroad, as well as to the general public at large. The scope of this effort and the priorities attached to specific projects are influenced by changes in military and civilian medical science and technology (S&T), operational requirements, military threat assessments, and national defense strategies. Extramural research and development programs play a vital role in the fulfillment of the objectives established by the USAMRDC. General information on the USAMRDC can be obtained at https://mrdc.health.mil/.

This BAA is intended to solicit extramural research and development ideas using the authority provided by 10 USC 4001. The BAA is issued under the provisions of the Competition in Contracting Act of 1984 (Public Law 98-369), as implemented in FAR 6.102(d)(2) and 35.016 and in Department of Defense Grant and Agreement Regulations (DoDGARs) 22.315. In accordance with FAR 35.016, projects funded under this BAA must be for basic and applied research to support scientific study and experimentation directed toward advancing the state-of-the-art or increasing knowledge or understanding rather than focusing on development of a specific system or hardware solution. Research and development funded through this BAA are intended and expected to benefit and inform both military and civilian medical practice and knowledge. This BAA utilizes competitive procedures in accordance with 10 USC 2302(2)(B) for the selection for award of S&T proposals/applications. For the purposes of this BAA, S&T includes activities involving basic research, applied research, advanced technology development, and, under certain conditions, may include activities involving advanced component development and prototypes.

The selection process is highly competitive, and the quantity of meaningful submissions (both pre-proposals/pre-applications and full proposals/applications) received typically exceeds the number of awards that available funding can support.

This BAA provides a general description of USAMRDC's research and development programs, including Research Areas of Interest, evaluation and selection criteria, pre-proposal/ pre-application and full proposal/application preparation instructions, and general administrative information. Specific submission information and additional administrative requirements can be found in the document titled, "General Submission Instructions," which is available on Grants.gov along with this BAA.

The FY23-FY27 USAMRDC BAA is continuously open for a 5-year period, from October 1, 2022 through September 30, 2027, at 11:59 p.m. Eastern Time. Submission of a preproposal/pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org/). Preproposals/pre-applications may be submitted at any time throughout the 5-year period. If the USAMRDC is interested in receiving a full proposal/application, the Principal Investigator will be sent an invitation to submit via eBRAP. A full proposal/application must be submitted through Grants.gov (http://www.grants.gov/). Invited full proposals/applications can be submitted under this FY23-FY27 BAA through September 30, 2027.
