

Program Announcement for the Defense Health Agency

Hearing Restoration Research Program Focused Research Award

Funding Opportunity Number: HT942526HRRPFRA

Pre-Application Due: August 25, 2026

Application Due: September 10, 2026

This program announcement must be read in conjunction with the General Application Instructions, version [CD26_01](#).

Content

	Before You Begin	3
①	Basic Information Summarizes the <u>funding opportunity</u> , <u>funding details</u> , <u>submission deadlines and review dates</u>	4
②	Eligibility Details eligibility factors for the <u>applicant organization</u> and <u>Principal Investigator</u>	5
③	Program Description Describes the <u>program mission</u> and <u>intent of the Focused Research Award</u> ; provides <u>key award information</u> and <u>considerations</u> ; and outlines <u>funding details</u>	6
④	Application Contents Presents the two-step <u>application process</u> and instructions for preparing a <u>pre-application</u> and <u>full application</u>	10
⑤	Submission Requirements Provides <u>locations for application packages</u> , instructions for submitting <u>pre-applications</u> and <u>full applications</u> , and describes <u>application verification</u>	19
⑥	Application Review Information Outlines the processes for application <u>compliance review</u> , <u>pre-application</u> and <u>full application</u> selection/notification, and <u>risk assessment</u> . Also, details the review criteria for <u>pre-application screening</u> and both tiers of the CDMRP application review process – <u>Peer Review</u> and <u>Programmatic Review</u>	22
⑦	Federal Award Notices Outlines what a successful applicant can expect <u>if recommended for funding</u>	26
⑧	Post-Award Requirements References <u>policy requirements</u> for funded research; outlines <u>reporting requirements</u> and restrictions related to <u>Principal Investigator changes</u> and <u>institutional award transfers</u>	27
⑨	Other Information Outlines criteria for administrative actions including application <u>rejection</u> , <u>modification</u> , <u>withdrawal</u> and <u>withhold</u>	29
	Appendix 1 Includes a checklist for all full application components to facilitate application submission	31
	Appendix 2 Acronym List	32

Before You Begin

- **Active [SAM.gov](#), [eBRAP.org](#) and [Grants.gov](#) registrations are required for application submission.** User registration for each of these websites can take several weeks or longer. Each applicant must ensure their registrations are active and up to date prior to application preparation.
- **Read this funding opportunity announcement in the order it is written before beginning to prepare application materials.** It is the responsibility of the applicant to determine whether the proposed research meets the intent of this funding opportunity and that all parties meet eligibility requirements.
- **To support application preparation, additional resources are available** including an application process [FAQ](#), a [Guide for Intragovernmental & Intramural Applicants](#) and a [CDMRP Video Series](#) detailing the application process.

[Basic Information](#) | [Eligibility](#) | [Program Description](#) | [Application Contents and Format](#) | [Submission Requirements](#) | [Application Review Information](#) | [Federal Award Notices](#) | [Post-Award Requirements](#) | [Other Information](#)

1. Basic Information About the Funding Opportunity

Summary: The fiscal year 2026 (FY26) Hearing Restoration Research Program (HRRP) Focused Research Award (FRA) supports promising research that accelerates drug discovery and therapeutic development for hearing restoration after military-relevant auditory system injury. The FRA may be used to support preclinical studies and/or [clinical research](#). Research must align with at least one of the [FY26 HRRP Focus Areas](#). The FRA **cannot** be used to support [clinical trials](#), tinnitus research or vestibular research.

Distinctive Features:

- The FRA offers [two Funding Levels](#) to support research at different stages and the exploration/development of ideas of different maturity levels.
- Funding Level 2 includes a [Partnering Principal Investigator \(PI\) Option \(PPIO\)](#) for **two PIs**, an Initiating PI and a Partnering PI.
- Scored [peer review criteria](#) include Research Idea/Rationale, Research Strategy and Feasibility, Impact, and Personnel.
- [Programmatic review criteria](#) include adherence to the intent of the FRA, contribution to the HRRP portfolio, relative impact, and relevance to military health.

Funding Details: The Congressionally Directed Medical Research Programs (CDMRP) expects to allot roughly \$400K to fund approximately one FRA – Funding Level 1 application with a total cost cap of \$400K and approximately \$2.4M to fund approximately two FRA – Funding Level 2 applications with total cost caps of \$1.2M per award. The maximum period of performance is **2** years for FRA – Funding Level 1 and **3** years for FRA – Funding Level 2. It is anticipated that awards made from this fiscal year 2026 (FY26) funding opportunity will be funded with FY26 funds, which will expire for use on September 30, 2032. Awards supported with FY26 funds will be made no later than September 30, 2027.

Submission and Review Dates and Times

- **Pre-Application (Letter of Intent) Submission Deadline:** 5:00 p.m. Eastern Time (ET), August 25, 2026
- **Application Submission Deadline:** 11:59 p.m. ET, September 10, 2026
- **End of Application Verification Period:** 5:00 p.m. ET, September 15, 2026
- **Peer Review:** November 2026
- **Programmatic Review:** January 2027

Announcement Type: Initial

Funding Opportunity Number: HT942526HRRPFRA

Assistance Listing Number: 12.420

2. Eligibility Information

2.1. Eligible Applicants

2.1.1. Organization

[Extramural](#) and [intramural U.S. Department of War \(DOW\)](#) organizations are eligible to apply, ***including foreign and domestic organizations, for-profit and nonprofit organizations, and public or private entities.***

2.1.2. Principal Investigator

Independent investigators affiliated with an eligible organization are eligible to be named PI on the application, regardless of ethnicity, nationality or citizenship status.

2.2. Cost Sharing

Cost sharing is not an eligibility requirement.

2.3. Other

Awards are made to eligible ***organizations***, not to individuals. Refer to the GAI for additional [recipient qualification requirements](#).

3. Program Description

The Defense Health Agency Contracting Activity (DHACA) is soliciting applications to this funding opportunity using delegated authority provided by United States Code, Title 10, Section 4001 (10 USC 4001). The CDMRP is the program office managing this FY26 funding opportunity as part of the Hearing Restoration Research Program (HRRP). The CDMRP is located within the Defense Health Agency Research and Development (DHA R&D), which is a part of the Department of Defense, DOD, herein referred to using the secondary title Department of War, DOW. Congress initiated the HRRP in 2017 to provide support for hearing restoration research with the goal of reducing the burden of hearing loss on Service Members. Appropriations for the HRRP from FY17 through FY24 totaled \$70.0 million (M). The FY26 appropriation is \$5.0M.

The HRRP aims to deliver groundbreaking solutions for hearing restoration by advancing the understanding, diagnosis, repair and regeneration of the auditory system.

Program priorities: There are no U.S. Food and Drug Administration (FDA)-approved drugs to treat hearing loss associated with sensory, neural, synaptic or central auditory dysfunction. Although significant progress has been made in the molecular and cellular understanding of hearing loss and regeneration mechanisms in the inner ear, the majority of research is preclinical. The unique anatomical features of the inner ear render it difficult to access and not amenable for biopsy, creating a major hurdle for the clinical validation and translation of preclinical findings. Furthermore, it severely hinders the advancement of diagnostic capabilities beyond behavioral functional tests. As potential therapeutics to treat sensory, neural, synaptic or central auditory dysfunction are discovered, the ability to correctly match patient populations to appropriate interventions and accurately measure outcomes will be crucial for the success of clinical trials. The HRRP challenges the scientific community to design innovative research to overcome these major obstacles to hearing restoration.

3.1. Award History

The HRRP FRA mechanism was first offered in FY19. Since then, 241 FRA applications were received, and 53 were recommended for funding.

3.2. Intent of the FRA

The FRA supports promising basic through translational research that accelerates drug discovery and therapeutic development for hearing restoration after military-relevant auditory system injury.

The FRA may be used to support preclinical studies and/or [clinical research](#). However, the FRA may **not** be used to conduct [clinical trials](#).

Tinnitus or vestibular-related research is excluded.

3.2.1. Focus Areas

To meet the intent of the funding opportunity, applications to the FY26 HRRP FRA must address research in one or more of the following **Focus Areas**:

- Improve and accelerate the translation of biological regeneration/repair mechanisms into clinical applications. Research addressing the damage, repair and regeneration of the auditory system after military-relevant injuries is strongly encouraged.

Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- Develop diagnostic tests that differentiate sensory, neural, synaptic and central processing disorders, that may inform applicability and outcomes for current or future hearing restoration therapeutics.
- Develop reliable in-vitro human models to facilitate the understanding, derivation and characterization of human auditory cells, and/or to facilitate the evaluation of hearing restoration therapies.

3.2.2. Key Elements for the FRA

- **Experimental design requirements for studies that aim to develop therapeutic interventions:**
 - If the therapeutic intervention aims to restore hearing after **established hearing loss**, the experimental design must enable or facilitate *the eventual connection of the intervention to specific pathology (e.g., sensory, neural, synaptic or central auditory)* and the application of the intervention to real-world injuries.
 - If the therapeutic intervention aims to preserve cells/synapses after **acute auditory injury**, to be administered soon after or even before the injury, the experimental design must demonstrate sufficient consideration of *safety criteria that the intervention will have to meet in order for it to be given to people at risk of, but have not yet been diagnosed with, hearing loss.*

Refer to [Attachment 1](#), Project Narrative, for additional details on these requirements.

- **Funding Levels:** The FY26 HRRP FRA offers two Funding Levels to support research at different stages and the exploration/development of ideas of different maturity levels. ***The applicant will select the funding level during pre-application submission. The funding level should be selected based on the stage and maturity level of the research project, rather than the amount of the budget.***
 - **Funding Level 1** supports exploratory, high-risk/high-reward research that is in the earliest stages of idea development. Research must have the potential to yield new avenues of investigation, such as new approaches, new research tools or new paradigms.
 - Preliminary data are allowed but ***not required***. Applicants must provide solid rationale of the research idea, supported by literature.
 - Investigators without prior experience with the auditory system are welcome to submit research ideas to Funding Level 1, provided that the investigating team has sufficient expertise to test the research idea.
 - **Funding Level 2** supports the advancement of more mature research toward clinical translation.
 - Funding Level 2 applications may focus on any phase of research from basic through translational.
 - Preliminary data supporting the **readiness** and **feasibility** of the proposed research are required.
 - **PPIO:** The FY26 HRRP FRA Funding Level 2 includes an **option for two PIs**. One PI will be identified as the **Initiating PI** and will be responsible for the majority of the administrative tasks associated with application submission. The other PI will be identified as a **Partnering PI**. Both PIs should contribute significantly to the

Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

development and execution of the proposed research project. If recommended for funding, each PI will be named on separate awards to the recipient organization(s). Each award will be subject to separate reporting, regulatory and administrative requirements. For individual submission requirements for the Initiating PI and Partnering PI, refer to [Section 5.3, Submission Instructions](#).

3.2.3. Other Important Considerations for the FRA

In accordance with the National Defense Authorization Act for Fiscal Year 2026, Section 732, CDMRP does not support the conduct of painful research (U.S. Department of Agriculture pain category D or E) involving domestic cats or dogs, except for studies relating to military or service animals.

Applications from investigators within the DOW and applications involving multidisciplinary collaborations among academia, industry, the DOW, the U.S. Department of Veterans Affairs (VA) and other federal government agencies are highly encouraged. These relationships can leverage knowledge, infrastructure and access to unique clinical populations that the collaborators bring to the research effort, ultimately advancing research that is of significance to Service Members, Veterans, their Families and the American Public. A list of websites that may be useful in identifying additional information about ongoing DOW and VA areas of research interest or potential opportunities for collaboration can be found in [Appendix 10](#) of the GAI.

3.3. Funding Instrument

The funding instrument for awards made under the program announcement will be grants (31 USC 6304).

3.4. Funding Details

- **Funding Level 1:**

Period of Performance: The maximum period of performance is **2** years.

Cost Cap: The application's total costs budgeted for the entire period of performance should not exceed **\$400,000**. If indirect cost rates have been negotiated, indirect costs are to be budgeted in accordance with the organization's negotiated rate. Collaborating organizations should budget associated indirect costs in accordance with each organization's negotiated rate.

The applicant may request the entire maximum funding amount for a project that may have a period of performance less than the maximum **2** years.

- **Funding Level 2:**

Period of Performance: The maximum period of performance is **3** years.

Cost Cap: The application's total costs budgeted for the entire period of performance should not exceed **\$1,200,000**. If indirect cost rates have been negotiated, indirect costs are to be budgeted in accordance with the organization's negotiated rate. Collaborating organizations should budget associated indirect costs in accordance with each organization's negotiated rate.

If choosing the PPIO, the cost cap applies to the **combined** total costs budgeted for the entire period of performance in the applications of the Initiating PI and the Partnering PI.

Section Shortcuts

Basic Information | Eligibility | [Program Description](#) | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

Both PIs should contribute significantly to the research, and direct cost funding should be divided accordingly unless otherwise warranted and clearly justified.

The applicant may request the entire maximum funding amount for a project that may have a period of performance less than the maximum **3** years.

All direct and indirect costs of any subaward or contract must be included in the direct costs of the primary award.

The appropriateness of the budget for the proposed research will be assessed during peer review.

Direct Cost Restrictions: For the FRA, direct costs:

Must be requested for, **if applying for Funding Level 2:**

- Travel costs for up to two investigators or, if choosing the PPIO, up to one investigator per award, to present project information or disseminate results at one DOW-sponsored meeting to be specified by the program office during award negotiations (e.g., the Military Health System Research Symposium). For planning purposes, it should be assumed that the meeting will be held in the Central Florida Area. Costs associated with travel to this meeting should be included in year 2 or 3 of the budget. This is in addition to the scientific/technical meeting described below.

May be requested for (not all-inclusive), regardless of funding level:

- Travel in support of multi-institutional collaborations.
- Costs for one investigator or, if choosing the PPIO, one investigator per award, to travel to one scientific/technical meeting per year to present project information or disseminate project results from the HRRP FRA.
- Research subject compensation and reimbursement for study-related out-of-pocket costs (e.g., travel, lodging, parking, costs associated with caregiving and resources/equipment to enable participation).

Must not be requested for:

- Costs for travel to scientific/technical meeting(s) beyond the limits stated above.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

4. Application Contents and Format

4.1. Application Overview

Application submission is a two-step process requiring both a **pre-application** submitted via the Electronic Biomedical Research Application Portal ([eBRAP](#)) and a **full application** submitted through eBRAP or Grants.gov. Depending on the submission portal, certain aspects of the application will differ.

Intramural DOW organizations submitting a full application should follow instructions for submission through eBRAP.

Extramural organizations submitting a full application must follow instructions for submission through Grants.gov.

4.2. Pre-Application Components

The PI, or Initiating PI if choosing the PPIO, must submit the following pre-application components.

Letter of Intent (LOI) (one-page limit): Provide a brief description of the research to be conducted.

4.3. Full Application Components

Note: If choosing the PPIO, the CDMRP requires **separate** full application package submissions by the Initiating PI and the Partnering PI, even if the PIs are located within the same organization. The application submission process for the Partnering PI uses an [abbreviated full application package](#).

4.3.1. Full Application Components for the PI or Initiating PI

Each application submission must include the completed full application package for this program announcement. See [Appendix 1](#) for a checklist of the full application components.

(a) SF424 Research & Related Application for Federal Assistance Form (*Grants.gov submissions only*):

IMPORTANT: When completing the SF424 R&R, enter the **eBRAP log number** assigned during pre-application submission into **Block 4a – Federal Identifier**.

(b) Attachments:

Each attachment of the full application components must be uploaded as an individual file in the format specified and in accordance with the [formatting guidelines](#) in the GAI.

- **Attachment 1: Project Narrative: Upload as “ProjectNarrative.pdf”.**

Page Limit:

- **Funding Level 1:** six-page limit
- **Funding Level 2:** 12-page limit

Describe the proposed project in detail using the outline below.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- **Research Idea/Rationale:** Explain the research idea. Clearly state the objective(s) to be reached and/or the hypothesis(es) to be tested. Explain how the proposed research is innovative, addresses an important need, and is supported by rationale, critical analysis of the literature, and as applicable, preliminary data. If proposing to develop an intervention, clearly state whether the intervention is for restoring hearing after established hearing loss or for preserving cells/synapses after acute auditory injury, to be administered soon after the injury.
- **Specific Aims:** Describe the project's specific aims.
- **Research Strategy:** Describe the experimental design, methods, and analyses, including controls, in sufficient detail so that the appropriateness and feasibility of the research strategy can be fully evaluated. All projects should adhere to a core set of **standards for rigorous study design and reporting** to maximize the reproducibility and translational potential of clinical and preclinical research, such as those described in the [STROBE](#) and [ARRIVE guidelines 2.0](#). As applicable, include measures to be taken to reduce bias and achieve reproducible and rigorous results to facilitate evaluation.
 - If the intervention aims to restore hearing after **established** hearing loss, describe how the experimental design will enable or facilitate the eventual connection of a therapeutic intervention to specific pathology (e.g., sensory, neural, synaptic or central auditory) and the application of the intervention to real-world injuries. Describe plans to examine, document and interpret **both** auditory system pathology (e.g., damage to hair cells and/or synapses) and auditory function.
 - If the intervention aims to preserve cells/synapses after **acute** auditory injury, to be administered soon after or even before the injury, describe the safety criteria that the intervention will meet in order for it to be given to people at risk of, but have not yet been diagnosed with, hearing loss. Explain the rationale used to develop the criteria and describe **any known side effects**. Explain why the criteria will likely be accepted by the Regulatory Agency and potential users.
 - ❖ For the purposes of this funding opportunity, Regulatory Agency refers to the FDA or any relevant international regulatory agency unless otherwise noted.
 - ❖ If the applicant has engaged the Regulatory Agency and received guidance on the acceptability of the proposed criteria, please include that information in the application.
 - ❖ If the applicant has engaged potential users to estimate/predict the level of user acceptance, please include that information in the application.
 - **Research involving in vivo or in vitro models, including but not limited to cell lines, animals, organoids and other New Approach Methodologies (NAMs):** Justify the selection of the proposed model(s). Explain why it was chosen over other models and how it is appropriate for addressing the study aims. As appropriate, consider including in vitro human models or other NAMs to accelerate clinical translation. For research involving animals, further details will be required in [Attachment 8, Animal Research Plan](#), as applicable.
 - **If proposing [clinical research](#):**
 - ❖ Describe the study population. Describe the rationale for the selection of subjects/samples/data. Explain how the selection is appropriate for

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

addressing the study aims. Provide a detailed plan for the recruitment of human subjects or the acquisition of samples, including evidence that the research team has access to subjects, samples and/or data.

- ❖ Describe the strategy for the inclusion of women and minorities appropriate to the objectives of the study, including a description of the composition of the proposed study population in terms of sex, racial and ethnic group. If limiting inclusion of any group by sex, race or ethnicity, provide justification related to the scientific goals. Studies utilizing human biospecimens or datasets that cannot be linked to a specific individual, ethnicity or race (typically classified as exempt from Institutional Review Board [IRB] review) are exempt from this requirement. Anticipated enrollment table(s) with the proposed enrollment distributed on the basis of sex, race and ethnicity should be provided as part of [Attachment 2: Supporting Documentation](#).
 - **Statistical Plan:** Describe the statistical plan, including power analysis, and the rationale for the statistical methodology.
 - Address potential pitfalls and problem areas, and present alternative methods and approaches.
 - Explain how the research can be completed within the proposed period of performance.
 - **Research involving access to military and/or VA patient populations and/or DOW or VA resources or databases:** Describe the access at the time of submission and include a plan for maintaining access as needed throughout the proposed research. Also include a plan for obtaining any required data sharing, memorandum of understanding or other agreements required to access and publish data. Refer to the General Application Instructions, [Appendix 4](#), for additional considerations.
- **Attachment 2: Supporting Documentation: Combine and upload as a single file named “Support.pdf”.** 

There are no page limits for these components unless otherwise noted. Include only components described below; inclusion of items not requested or viewed as an extension of the Project Narrative will result in the removal of those items or may result in administrative withdrawal of the application.

- **References Cited:** List the references cited in the Project Narrative using a standard reference format (include URLs, if available).
- **List of Abbreviations, Acronyms and Symbols:** Provide a list of abbreviations, acronyms and symbols.
- **Facilities, Existing Equipment and Other Resources:** Describe the facilities and equipment available for performance of the proposed project; include any additional facilities or equipment proposed for acquisition at no cost to the award. Indicate whether government-furnished facilities or equipment are proposed for use. If so, reference the original or present government award under which the facilities or equipment items are now accountable. There is not a standardized form for this information.
- **Publications and/or Patents:** Include a list of relevant publication URLs and/or patent abstracts. If articles are not publicly available, then copies of up to five

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

published manuscripts may be included in Attachment 2. Extra items will not be reviewed.

- **Letters of Support (two-page limit per letter is recommended):** Provide individual letters signed by collaborating individuals and/or organizational officials demonstrating that the PI has the support and resources necessary for the proposed work. Letters from the PI's Department Chair, or appropriate organization official, should also confirm that the PI(s) meet [eligibility criteria](#). If applicable, provide a letter of support, signed by the lowest-ranking person with approval authority, confirming participation of intramural DOW collaborator(s) and/or access to military populations, databases or DOW resources. If applicable, provide a letter of support signed by the VA Facility Director(s), or an individual designated by the VA Facility Director(s), confirming access to VA patients, resources and/or VA research space.
- **Sex as a Biological Variable Strategy (two-page limit is recommended):** Describe the strategy for how sex will be considered as a biological variable. This strategy should include a brief discussion of what is currently known regarding sex differences in the applicable research area. Clearly articulate how sex as a biological variable will be factored into the data analysis plan and how data will be collected and disaggregated by sex. If needed, provide a strong rationale for proposing a single-sex study, based on justification from scientific literature, preliminary data or other relevant considerations. Refer to the [CDMRP Directive on Sex as a Biological Variable in Research](#) for additional information.
- **Inclusion Enrollment Report (only required if [clinical research](#) is proposed):** Provide an anticipated enrollment table(s) for the inclusion of women and minorities using the "[Public Health Service \(PHS\) Inclusion Enrollment Report](#)", a three-page fillable PDF form, that can be downloaded from eBRAP. The enrollment table(s) should be appropriate to the objectives of the study with the proposed enrollment distributed on the basis of sex, race and ethnicity. Studies utilizing human biospecimens or datasets that cannot be linked to a specific individual, ethnicity or race (typically classified as exempt from IRB review) are exempt from this requirement.
- **Research Sharing Plan:** Describe the type of data or research resources (e.g., bio-specimen, analysis tool/software, training material) to be made publicly available as a result of the proposed work. Describe the mechanism (e.g., direct sharing, repository, mixed mode) by which data and resources generated during the period of performance will be shared with the research community and other affected communities, including clinical research participants. Include the name of the repository(ies) where scientific data and resources arising from the proposed study will be archived, if applicable. Identify and provide the rationale for any data or resources that will not be shared (e.g., for intellectual property, feasibility, cost, or other considerations). The plan should also protect participant privacy, confidential and proprietary data, and performer/third-party intellectual property. Provide a milestone plan for disseminating data/results including when data and resources will be made available to other users. In cases where the study participant could potentially derive medical or other benefit from the information, explain whether the results of screening and/or study participation will be shared with the participant or their primary care provider, including results from any screening or diagnostic tests performed as part of the study.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

Do not submit a copy of the National Institutes of Health (NIH) Data Management and Sharing Plan or duplicate the Data Management Plan which will be requested only after a recommendation for funding is made.

Refer to the [CDMRP Directive on Sharing Data and Research Resources](#) for more information about the CDMRP's expectations for making data and research resources publicly available.

- **Attachment 3: Technical Abstract (one-page limit): Upload as “TechAbs.pdf”.** 

Write the technical abstract using the outline below. Programmatic Reviewers rely on the technical abstract for appropriate description of the project's key aspects. Clarity and completeness within the space limits are highly important.

- **Research Idea/Rationale:** Present the ideas and scientific rationale behind the proposed research.
- **Hypothesis/Objective(s):** State the hypothesis to be tested and/or objective(s) to be reached.
- **Specific Aims:** State the specific aims of the study.
- **Study Design:** Describe the study design, including appropriate controls.
- **Expected Outcome:** Describe the expected outcome(s) of the proposed research. Be as specific as possible.

- **Attachment 4: Lay Abstract (one-page limit): Upload as “LayAbs.pdf”.** 

The lay abstract should address the points outlined below *in a manner that is readily understood by readers without a background in science or medicine*. Avoid overuse of scientific jargon, acronyms and abbreviations. ***Do not duplicate the technical abstract.***

- Summarize the idea and rationale for the proposed research. Why is it needed?
- Explain the objective(s) and study design of the proposed research. What questions will it answer, and how will it answer them?
- Explain the expected outcome. At the end of the project, what new knowledge or new capability will have been gained?

- **Attachment 5: Statement of Work (three-page limit): Upload as “SOW.pdf”.** 

Refer to eBRAP for the [Suggested SOW Format](#).

For guidance on preparing the SOW, refer to either the [Example: Assembling a Clinical Research and/or Clinical Trial Statement of Work](#) or [Example: Assembling a Generic Statement of Work](#), whichever is most appropriate for the proposed effort. Include milestones for data or research resource(s) sharing.

- **If choosing the PPIO**, each PI must submit an **identical** copy of a jointly created SOW. The specific contributions of the Initiating PI and the Partnering PI should be clearly noted for each task.
- The HRRP requires that all traumatic brain injury (TBI)-related clinical research with at least 50 subjects funded by this program be shared through the jointly supported [DOW-NIH Federal Interagency TBI Research Information System \(FITBIR\)](#). FITBIR-eligible research should include the following subtasks:

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- FITBIR investigator and study registration within the first 30 days of the award
- Sharing of draft data collection forms with FITBIR
- Annual FITBIR data submission
- **Attachment 6: Impact Statement (one-page limit): Upload as “Impact.pdf”.**

Describe the anticipated impact of the proposed work on hearing restoration research and/or patient care. Be as specific as possible. Write with a broad audience in mind, including readers without a background in science or medicine.

 - Explain who will benefit from the proposed research and how they will benefit.
 - If applicable, describe how the anticipated outcomes of the proposed study will make an impact in understanding health differences between sexes.
- **Attachment 7: Relevance to Military Health Statement (one-page limit): Upload as “Military.pdf”.**

Explain how the proposed research and the anticipated outcomes will benefit Service Members, Veterans and/or their Families. Discuss how the proposed research is applicable to operational performance, medical readiness, and/or quality of life.

As applicable, include the elements below:

 - If active-duty military, Veteran or military Family member population(s) will be used in the proposed research project, describe the population(s), the appropriateness of the population(s) for the proposed research, and the feasibility of using the population. If a non-military population will be used for the proposed research project, explain how the population simulates the targeted population.
 - If applicable, provide a description of how the knowledge, information, products or technologies gained from the research could be implemented in a dual-use capacity to both benefit the civilian population and address a military need.
 - If the ultimate outcome of the research is intended to be applicable in the military operational environment (e.g., battlefield, Battalion Aid Stations, Forward Support Medical Battalions), identify any element(s) or special consideration(s) related to the intended applicability. Applicants may consult [A Beginner’s Guide to Military Healthcare System \(Audiology & Otolaryngology\)](#) for descriptions of the range of military operational environment and types of care provided.
- **Attachment 8: Animal Research Plan (no page limit): Upload as “AnimalResPlan.pdf”. (Attachment 8 is only applicable and required for applications proposing animal studies.)**

If the proposed study involves animals, a summary describing the animal research that will be conducted must be included in the application. Consult the [ARRIVE guidelines 2.0](#) (Animal Research: Reporting *In Vivo* Experiments) to ensure relevant aspects of rigorous animal research are adequately planned for and, ultimately, reported. The Animal Research Plan may not be an exact replica of the protocol(s) submitted to the Institutional Animal Care and Use Committee (IACUC). The Animal Research Plan should address the following points to achieve reproducible and rigorous results for each proposed animal study; do not duplicate information from the Project Narrative:

 - Briefly describe the research objective(s) of the animal study.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

- Summarize the animal species, strain and model(s) to be used. Identify the ages, sex and total number of animals by species.
- Summarize the procedures to be conducted, the endpoints and outcome measures.
- Describe how the study will be controlled.
- Describe the randomization and blinding procedures for the study, and any other measures to be taken to minimize the effects of subjective bias during animal treatment and assessment of results. If randomization and/or blinding will not be utilized, provide justification.
- Provide a sample size estimate for each study arm and the method by which it was derived, including power analysis calculations.
- Describe how data will be handled, including rules for stopping data collection, criteria for inclusion and exclusion of data, how outliers will be defined and handled, statistical methods for data analysis and identification of the primary endpoint(s).
- **Attachment 9: Partnership Statement (one-page limit): Upload as “Partnership.pdf”. (*Attachment 9 is only applicable and required for applications choosing the PPIO.*)**

Describe how the partners’ combined experience will better address the research question and explain why the work should be done together rather than through separate efforts.
- **Attachment 10: Representations (*Grants.gov submissions only*): Upload as “RequiredReps.pdf”. All extramural applicants must complete and submit the [Required Representations](#) document available on eBRAP.** 
- **Attachment 11: Suggested Intragovernmental/Intramural Budget Form (*if applicable*): Upload as “IGBudget.pdf”. If an [intramural DOW organization](#) will be a collaborator in the performance of the project, complete a separate budget for that organization using the [Suggested Intragovernmental/Intramural Budget](#) form available on eBRAP.** 

(c) Additional Application Materials:

The following are additional forms for application submission. Follow the instructions specific to the submission portal, as found within the GAI.

Section Shortcuts

Basic Information | Eligibility | Program Description | [Application Contents and Format](#) | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

Grants.gov

eBRAP.org

i. Research & Related Senior/Key Person Profile (Expanded)

- **Biographical Sketch**
- **Current/Pending Support**

Intragovernmental applicants must include their internally supported research and development programs.

ii. Research & Related Budget

Initiating and Partnering PIs must have a separate budget and justification specific to their distinct portions of the effort that the applicant organization will submit as separate Grants.gov or eBRAP application packages. The Partnering PI should not include budget information for the Initiating PI, or vice versa, even if they are located within the same organization. Refer to [Section 3.4. Funding Details](#), for detailed budget information.

iii. Project/Performance Site Location(s)

iv. Research & Related Subaward Budget Attachment(s) *(if applicable, Grants.gov submissions only)*

4.3.2. Full Application Components for the Partnering PI

Refer to the equivalent attachment above for details specific to each of the following application components. See [Appendix 1](#) for a checklist of the full application components required for the Partnering PI.

(a) [SF424 Research & Related Application](#) for Federal Assistance Form (*Grants.gov Submissions Only*):

(b) **Attachments:**

- [Attachment 5: Statement of Work \(three-page limit\): Upload as “SOW.pdf”](#). Each PI must submit an identical copy of a jointly created SOW.
- [Attachment 10: Representations \(Grants.gov submissions only\): Upload as “RequiredReps.pdf”](#).
- [Attachment 11: Suggested Intragovernmental/Intramural Budget Form: Upload as “IGBudget.pdf”](#).

(c) [Additional Application Materials:](#)

The following are additional application materials for application submission. Follow the instructions specific to the submission portal found within the GAI.

4.4. Other Application Elements

If recommended for funding, a data management plan compliant with Section 3.c, Enclosure 3, [DoD Instructions 3200.12](#) will be requested.

If recommended for funding, a Quad Chart will be requested. The format for the quad chart is available on the [eBRAP "Funding Opportunities & Forms" web page](#).

The government reserves the right to request a revised budget, budget justification and/or additional information for applications recommended for funding.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

5. Submission Requirements

5.1. Location of Application Package

Download the application package components for HT942526HRRPFRA from [Grants.gov](#) or [eBRAP](#), depending on which submission portal will be used.

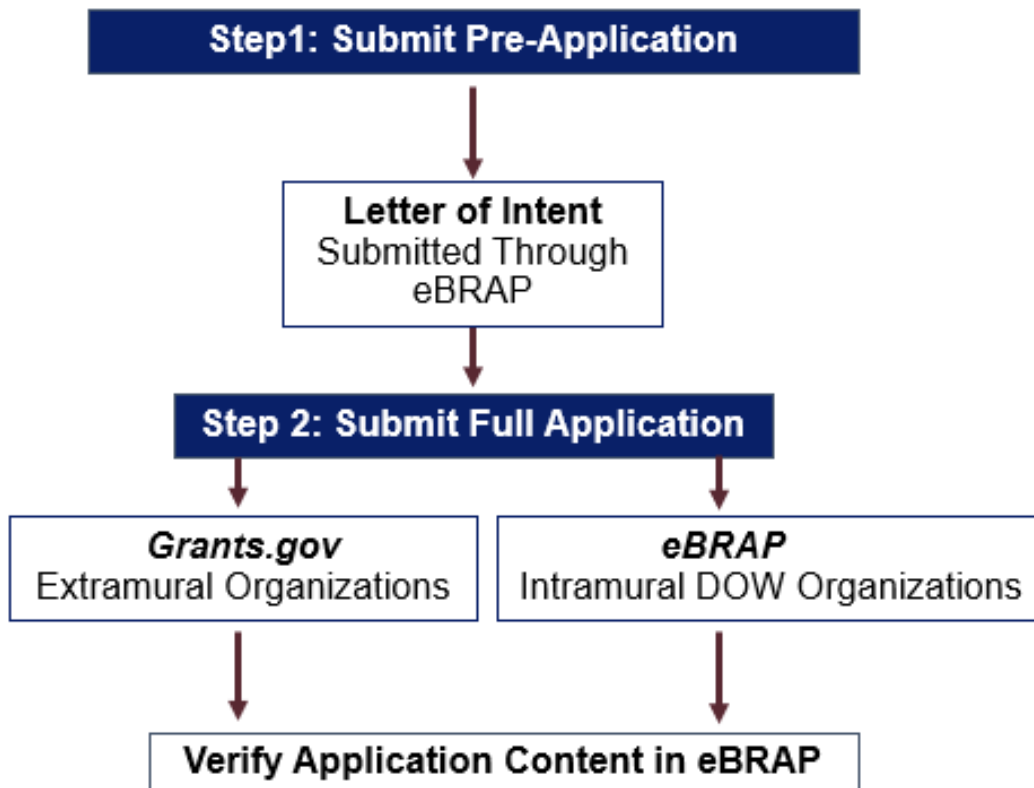

5.2. Unique Entity Identifier and System for Award Management

The applicant organization must be registered as an entity in the System for Award Management (SAM), [SAM.gov](#), and receive confirmation of an “Active” status before submitting an application through Grants.gov. Organizations must include the unique entity identifier (UEI) generated by the SAM in applications to this funding opportunity and maintain an active registration in the SAM at all times during which it has an active Federal award or an application under consideration. i

5.3. Submission Instructions

The CDMRP uses two portal systems to accept pre- and full application submissions. The workflow below shows which portal system to use for pre- and full application submissions, respectively.

Application Submission Workflow

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

5.3.1. Pre-Application Submission

All pre-application components must be submitted by the PI or Initiating PI through [eBRAP](#), including the submission of contact information of the Partnering PI. 

During the pre-application process, eBRAP assigns each submission a unique log number. This unique log number is required during [the full application submission process](#). The eBRAP log number, application title and all information for the PI, Business Official(s), performing organization, and contracting organization must be consistent throughout the entire pre-application and full application submission process. Inconsistencies may delay application processing and limit or negate the ability to view, modify and verify the application in eBRAP. Contact the [eBRAP Help Desk](#) if any changes need to be made.

If choosing the PPIO: After the Initiating PI confirms submission of the pre-application, the Partnering PI will be notified of the pre-application submission via an email from eBRAP. ***The Partnering PI must follow the instructions provided in the email to associate the partnering pre-application with their eBRAP account.*** If not previously registered, the Partnering PI must register in eBRAP.

Partnering PIs should not initiate a new pre-application based on the same research project submitted by the Initiating PI. Partnering PIs are urged to associate the partnering pre-application with their eBRAP account as soon as possible. If this is not completed by the full application deadline:

- An intramural Partnering PI will not be able to submit their full application package components to eBRAP.
- The Partnering PI will not be able to view and modify their full application during the verification period in eBRAP.

When starting the pre-application, PIs should select a Mechanism Option appropriate to their pre-application:

Application Includes:	Select Mechanism Option:
Funding Level 1	FRA-FL1
Funding Level 2, single PI	FRA-FL2
Funding Level 2, Partnering PI	FRA-FL2-PPIO

5.3.2. Full Application Submission

Grants.gov Submissions: Full applications from extramural organizations *must* be submitted through the Grants.gov Workspace. 

eBRAP Submissions: Only [intramural DOW organizations](#) may submit full applications through eBRAP. 

5.3.3. Applicant Verification of Full Application Submission in eBRAP

Independent of the submission portal, once the full application is submitted, it is transmitted to and processed in eBRAP; the transmission to eBRAP may take up to 48 hours. At this stage, the PI and organizational representatives will receive an email from eBRAP instructing them to log in to eBRAP to review, modify and verify the full application submission. 

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | [Submission Requirements](#)
Application Review Information | Federal Award Notices | Post-Award Requirements | Other Information

The Project Narrative and Research & Related Budget Form cannot be changed after the application submission deadline. Other application components, including subaward budget(s) and subaward budget justification(s), may be changed until the [application verification period](#) ends. The full application cannot be modified once the application verification period ends.

5.4. Submission Dates and Times

The pre-application and full application submission process should be started early to avoid missing deadlines. Regardless of submission portal used, all pre- and full application components must be submitted by the deadlines stipulated in this program announcement. There are no grace periods for deadlines; failure to meet submission deadlines will result in application rejection. ***The DHACA cannot make allowances/exceptions for submission problems encountered by the applicant.***

Submission dates and times are specified in [Section 1, Basic Information](#).

5.5. Intergovernmental Review

Not applicable for this funding opportunity.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

6. Application Review Information

6.1. Application Compliance Review

Submitting applications that propose essentially the same research project to different funding opportunities within the same program and fiscal year is prohibited and will result in administrative withdrawal of the duplicative application(s).

While it is allowable to propose similar research projects to different programs within the CDMRP or to other organizations, duplication of funding or accepting funding from more than one source for the same research is prohibited. See the [CDMRP's Directive on Research Duplication](#).

Including classified research data within the application and/or proposing research that may produce classified outcomes or outcomes deemed sensitive to national security concerns, may result in application withdrawal.

Members of the FY26 HRRP Programmatic Panel must not be involved in any pre-application or full application including, but not limited to, concept design, application development, budget preparation and the development of any supporting documentation, including personal letters of support/recommendation for the research and/or PI. Programmatic panel members **may** provide [letters](#) to confirm [PI eligibility](#) and access to laboratory space, equipment and other resources necessary for the project if that is part of their regular roles and responsibilities (e.g., as Department Chair). ***A list of the [FY26 HRRP Programmatic Panel members](#) can be found on the CDMRP website.***

Additional restrictions and associated administrative responses are outlined in [Section 9.2, Administrative Actions](#).

6.2. Review Criteria

6.2.1. Pre-Application Screening Criteria

Pre-applications submitted to this funding opportunity are used for program planning purposes only (e.g., reviewer recruitment) and will not be screened.

6.2.2. Peer Review Criteria

To determine technical merit, all applications will be evaluated individually according to the following **scored criteria**, which are of equal importance:

- **Research Idea/Rationale**
 - To what extent the proposed research is innovative, addresses an important need, and is supported by rationale, critical analysis of the literature, and as applicable, preliminary data.
- **Research Strategy and Feasibility**
 - To what extent are the specific aims, experimental design and statistical plan appropriate to address the objective(s) and/or hypothesis(es) of the proposed research?
 - If proposing research on an intervention to restore hearing after established hearing loss, to what extent will the experimental design enable/facilitate eventual connection of

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

the intervention to specific pathology (e.g., sensory, neural, synaptic or central auditory) and application of the intervention to real-world injuries?

- If proposing research to preserve cells/synapses after acute auditory injury, to be administered soon after the injury, to what extent does the experimental design demonstrate sufficient consideration of safety criteria to support/facilitate the eventual administration of the intervention to people at risk of, but have not yet been diagnosed with, hearing loss?
- How appropriate is the choice of model(s) or human subject population(s)?
- How well are studies designed to achieve reproducible and rigorous results?
- How well does the application acknowledge potential problems and address alternative approaches?
- Whether the research is feasible and can be completed within the proposed period of performance.
- Whether the strategy for considering sex as a biological variable is appropriate to the objectives of the study or whether the justification for a single-sex study is sufficiently strong.
- **Impact**
 - To what extent the proposed research will impact hearing restoration research and/or patient care.
 - If applicable, to what extent the anticipated outcomes of the proposed study will make an impact in understanding health differences between sexes.
- **Personnel**
 - How appropriate the expertise and levels of effort are for successful conduct of the proposed work.
 - **For applications choosing the PPIO:** How will the combined expertise of the Initiating and Partnering PIs better address the research question?

In addition, the following criteria will also contribute to the overall evaluation of the application, but will not be individually scored and are therefore termed **unscored criteria**:

- **Research Sharing Plan**
 - To what extent the plan for sharing of project data and research resources is appropriate and reasonable and includes dissemination to affected communities, study participants and/or the scientific community. If applicable, whether specific repository(ies) are named where data and research resources arising from the project will be stored.
- **Budget**
 - Whether the budget is appropriate for the proposed research.
- **Environment**
 - To what extent the scientific environment and level of institutional support is appropriate for the proposed research project.
 - How well the research requirements are supported by the availability of and accessibility to facilities and resources.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

- **Application Presentation**

- To what extent the writing, clarity and presentation of the application components influence the review.

6.2.3. Programmatic Review

To make funding recommendations and select the application(s) that, individually or collectively, will best achieve the program objectives, the following criteria are used by programmatic reviewers:

- Ratings and evaluations of peer reviewers
- Relevance to the priorities of the FY26 HRRP, as evidenced by the following:
 - Adherence to the intent of the funding opportunity, including alignment with at least one of the FY26 HRRP Focus Areas
 - Contribution to the HRRP portfolio
 - Relative impact
 - Relevance to military health

6.3. Application Review and Selection Process

6.3.1. Pre-Application

There is no review and selection process for pre-applications submitted to this funding opportunity. ***CDMRP will NOT provide an invitation to submit a full application after pre-application submission.*** Applicants are encouraged to develop pre-application and full application components concurrently and submit a full application AFTER successful submission of the pre-application.

6.3.2. Full Application

All applications are evaluated by scientists, clinicians and consumers in a two-tier review process. The first tier is **peer review**, the evaluation of applications against established criteria to determine technical merit, where each application is assessed for its own merit, independent of other applications. The second tier is **programmatic review**, a comparison-based process in which applications with high scientific and technical merit are further evaluated for programmatic relevance. Final recommendations for funding are subject to review and approval by a designated official. ***The highest-scoring applications from the first tier of review are not automatically recommended for funding. Funding recommendations depend on various factors as described in [Section 6.2.3, Programmatic Review](#).*** Additional information about the two-tier process used by the CDMRP can be found on the [CDMRP website](#).

Funding of applications received is contingent upon the availability of federal funds for this program, the number of applications received, the quality and merit of the applications as evaluated by peer and programmatic review, and the requirements of the government. Funds to be obligated on any award resulting from this funding opportunity will be available for use for a [limited time period](#) based on the fiscal year of the funds.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
[Application Review Information](#) | Federal Award Notices | Post-Award Requirements | Other Information

6.4. Risk, Integrity and Performance Information

Prior to making an assistance agreement award where the federal share is expected to exceed the simplified acquisition threshold, as defined in the Code of Federal Regulations, Title 2, Part 200.1 (2 CFR 200.1), over the period of performance, the federal awarding agency is required to review and consider any information about the applicant that is available in the SAM.

An applicant organization may review the SAM and submit comments on any information currently available about the organization that a federal awarding agency previously entered. The federal awarding agency will consider any comments by the applicant, in addition to other information in the designated integrity and performance system, in making a judgment about the applicant's integrity, business ethics and record of performance under federal awards when determining a recipient's qualification prior to award, according to the qualification standards of the Department of Defense Grant and Agreement Regulations (DoDGARs), Section 22.415.

In accordance with National Security Presidential Memorandum-33 and all associated laws, all fundamental research funded by the DOW must be evaluated for affiliations with foreign entities. All applicant organizations must disclose foreign affiliations of all key personnel named on applications. Failure to disclose foreign affiliations of key personnel shall lead to withdrawal of recommendations to fund applications. Applicant organizations may be presented with an opportunity to mitigate identified risks, particularly those pertaining to influence from foreign entities specified in law. Implementation of mitigation discussions and utilization of the [DOD Component Decision Matrix](#) must decrease risk of foreign influence in accordance with the above-mentioned laws and guidance prior to award.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | [Federal Award Notices](#) | Post-Award Requirements | Other Information

7. Federal Award Notices

For each compliant full application received, the organizational representative(s) and PI will receive email notification when the funding recommendations are posted to eBRAP, typically within 6 weeks after programmatic review. At this time, each PI will receive a peer review summary statement on the strengths and weaknesses of the application and an information paper describing the application receipt and review process for the HRRP award mechanisms. The information papers and a list of organizations and PIs recommended for funding are also posted on the program's page within the CDMRP website. After all awards are made, the CDMRP includes individual award information in a searchable [database](#).

If an application is recommended for funding, after the email notification is posted to eBRAP, a government representative will contact the person authorized to negotiate on behalf of the recipient organization.

Only an appointed DHACA Grants Officer may obligate the government to the expenditure of funds to an extramural organization. No commitment on the part of the government should be inferred from discussions with any other individual. ***The award document signed by the Grants Officer is the official authorizing document (i.e., assistance agreement).***

Intragovernmental obligations of funding will be made according to the terms of a negotiated Inter-Agency Agreement and managed by a CDMRP Science Officer.

Funding obligated to ***intragovernmental and intramural DOW organizations*** will be sent through the Military Interdepartmental Purchase Request (MIPR), Funding Authorization Document (FAD) or Direct Charge Work Breakdown Structure processes. Transfer of funds is contingent upon appropriate safety and administrative approvals. Intragovernmental and intramural DOW investigators and collaborators must coordinate receipt and commitment of funds through their respective Resource Manager/Task Area Manager/Comptroller or equivalent Business Official. 

An organization may, at its own risk and without the government's prior approval, incur obligations and expenditures to cover costs up to 90 days before the beginning date of the initial budget period of a new award.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | [Post-Award Requirements](#) | Other Information

8. Post-Award Requirements

8.1. Administrative and National Policy Requirements

Applicable requirements in the DoDGARs found in 32 CFR, Chapter I, Subchapter C, and 2 CFR, Chapter XI, apply to grants and cooperative agreements resulting from this program announcement.

The GAI contain information regarding [administrative requirements](#) and [national policy requirements](#).

Refer to full text of the latest [DoD R&D Terms and Conditions](#) and the [DHACA Terms and Conditions](#) for further information.

If there are delinquencies in technical reporting requirements for any existing DHA or U.S. Army Medical Research and Development Command awards at the applicant organization, DHACA will not issue any new awards to the applicant organization until all delinquent reports have been submitted.

Applications recommended for funding that involve animals, human data, human specimens, human subjects or human cadavers must be reviewed for compliance with federal animal and/or human subjects protection requirements and must be approved by the DHA R&D Office of Research and Regulatory Compliance (ORRC), prior to implementation. This administrative review requirement is in addition to the local IACUC, IRB or Ethics Committee (EC) review. 

The HRRP requires that all TBI-related clinical research with at least 50 subjects funded by this program be shared through FITBIR. Recipients will be required to upload study data annually and in accordance with the FITBIR data submission policies. There is no fee to use FITBIR, and detailed guidance and policies, including a cost estimator tool for budgeting considerations, can be found on the [FITBIR](#) website.

8.2. Reporting

Annual technical progress reports as well as a final technical progress report will be required. Annual and final technical progress reports must be prepared in accordance with the Research Performance Progress Report (RPPR).

The Award Terms and Conditions will specify whether additional and/or more frequent reporting is required.

PHS Inclusion Enrollment Reporting (**required if conducting clinical research**): Enrollment reporting on the basis of sex, race, and/or ethnicity will be required with each annual and final progress report. The [PHS Inclusion Enrollment Report](#) is available on eBRAP. Studies utilizing human biospecimens or datasets that cannot be linked to a specific individual, ethnicity, or race are exempt from this requirement.

Award Expiration Transition Plan: An [Award Expiration Transition Plan](#), using the template available on eBRAP, must be submitted with the final progress report.

Awards resulting from this program announcement may entail additional reporting requirements related to recipient integrity and performance matters. Recipient organizations that have federal contract, grant and cooperative agreement awards with a cumulative total value greater than \$10M are required to provide information to the SAM about certain civil, criminal and

Section Shortcuts

[Basic Information](#) | [Eligibility](#) | [Program Description](#) | [Application Contents and Format](#) | [Submission Requirements](#)
[Application Review Information](#) | [Federal Award Notices](#) | [Post-Award Requirements](#) | [Other Information](#)

administrative proceedings that reached final disposition within the most recent 5-year period and that were connected with their performance of a federal award. These recipients are required to disclose, semiannually, information about criminal, civil and administrative proceedings as specified in the applicable [Representations](#).

8.3. Additional Requirements

(Funding Level 2 only) Up to two investigators or, if choosing the PPIO, up to one investigator per award, are expected to present project information and/or results at one DOW-sponsored meeting (e.g., the Military Health System Research Symposium) during the period of performance in year 2 or 3. For planning purposes, it should be assumed that the meeting will be held in Central Florida.

Unless otherwise restricted, changes in the PI or organization will be allowed on a case-by-case basis, provided the intent of the award mechanism is met.

An organizational transfer of an award will not be allowed in the last year of the original period of performance or any extension thereof.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements

9. Other Information

9.1. Program Announcement Version

Questions related to this program announcement should refer to the program name, the program announcement name and the program announcement version code CD26_01d.

9.2. Administrative Actions

After receipt of full applications, the following administrative actions may occur.

9.2.1. Rejection

The following will result in administrative rejection of the full application:

- The Project Narrative is missing.
- The Budget is missing.
- Pre-application (LOI) was not submitted.

9.2.2. Modification

- Pages exceeding the specified limits will be removed prior to reviewing all documents.
- Documents not requested will be removed.

9.2.3. Withdrawal

The following may result in administrative withdrawal of the full application:

- A member of the FY26 HRRP Programmatic Panel is named as being involved in the development or execution of the research proposed or is found to have assisted in the pre-application or application processes.
- The application includes the name(s) of personnel from either of the CDMRP peer or programmatic review companies for which conflicts cannot be adequately mitigated. For FY26, the identities of the peer review contractor and the programmatic review contractor may be found on the [CDMRP website](#).
- Personnel from applicant or collaborating organizations are found to have contacted persons involved in the review or approval process to gain protected evaluation information or to influence the evaluation process.
- The application from an extramural organization, including non-DOW federal agencies, is received through eBRAP.
- The federal government recipient organization (including an intramural DOW organization):
(a) cannot accept and execute the entirety of the requested budget in FY26 funds; and/or (b) cannot coordinate the use of contractual, assistance or other appropriate agreements to provide funds to collaborators.
- The application fails to conform to this program announcement description.

Section Shortcuts

Basic Information | Eligibility | Program Description | Application Contents and Format | Submission Requirements
Application Review Information | Federal Award Notices | Post-Award Requirements | [Other Information](#)

- The application includes URLs, with the exception of links in the References Cited and Publication and/or Patent sections.
- The application includes research data that are classified and/or proposes research that may produce classified outcomes, or outcomes deemed sensitive to national security concerns.
- The same research project is submitted to different funding opportunities within the same program and fiscal year.
- The application proposes tinnitus or vestibular-related research.
- The application proposes a clinical trial.
- The PI does not meet the [eligibility criteria](#).
- **If choosing the PPIO:** Failure to submit all associated (Initiating and Partnering PI) applications by the deadline.

9.2.4. Withhold

Applications that appear to involve research misconduct will be administratively withheld from further consideration pending organizational investigation. The organization will be required to provide the findings of the investigation to the DHACA Grants Officer for a determination of the final disposition of the application.
